A. NICHOLSON, Editor

For first-class Job Printing, try the Hustler.

Premier Borden has announced his cabinet, but unfortunately he forgot to consult some of the opposition papers as to its composition—hence there is trouble in the camp, one of the papers claiming that it is the worst cabinet ever sworn in in Canada. Which all goes to show that Premier Borden made the mistake of his life in not adopting the cabinet the Hustler picked out two weeks ago.

"There, I told you so!" Premier Borden has gone and done it. He has had the audacity to go dead against the cabinets some of the opposition papers had selected for him, which is dreadfully ungrateful of him. He seems to have a White elephant in his cabinet, which is destined to Foster a (Hush!) now among his opponent, because he got Monk-ying with undesirable politicians for cabinet positions, thereby making a Rod (gers) for his own back.

TIMELY TOPICS

THE GREAT CONFERENCE

The fourth Ecumenical Methodist conference is now sitting at the city of churches, Toronto. True to its name for hospitality, a reception was tendered the conference delegates by His Worship Mayor G. R. Geary, the board of control and the city council in the City Hall. The city authorities spared no pains to provide for the comfort of the guests, and the delegates in large numbers availed themselves of the privilege of visiting Toronto's chief public building and making the acquaintance of its chief officials. It was a graceful compliment on the part of the city authorities to the conference, and the Daily Canadian Guardian assures us it was fully appreciated.

SOCIALISTIC METHODISM

In an address given by the Hon. Chas. W. Fairbanks, ex-Vice President of the United States, he said: "The Methodist Episcopal church stands for equal rights and complete justice for all men in all stations of life; for the principle of conciliation and arbitration in industrial dissensions; for the protection of the worker from dangerous machinery, occupational diseases, injuries and mortality for the abolition of child labor; for such regulations of the conditions of labor for women as shall safeguard the physical and moral health of the community; for the suppression of the sweating system; for the gradual and reasonable reduction of the hours of labor to the lowest practical point, with work for all, and for that degree of leisure for all which is the condition of the highest human life; for release from employment one day in seven; for a living wage in every industry; for the highest wage that each industry can afford, and for the most equitable division of the products of industry that can ultimately be devised; for the recognition of the golden rule and the mind of Christ as the supreme law of society and the sure remedy for all social ills."

We think the above will appeal

to all right-minded men. Let every church stand for the same and presently a brighter day shall dawn for the laboring man.

THE NEW CABINET

We are not surprised that there is some discontent expressed as to the make up of the new cabinet. I suppose we have as much right to register a kick as any one else, or as any other paper, for the splendid (ahem!) selection that appeared in our paper the other week was entirely ignored, notwithstanding the fact that a great deal of pains was taken in its selection.

Who knows what might have happened to our town had our recommendations been accepted? Who knows what jealousies might have been aroused among those fellow citizens and neighbors whose names were not included in that glorious bunch? Perhaps it is a good thing after all that our list was not accepted, and perhaps it is a good thing after all that many other lists were not accepted. Perhaps also it is a good thing that Mr. Borden was strong minded enough to resist many appeals for consideration, and at last appears to have pleased himself. We can hardly think that Mr. W. Laurier would have done anything else than exercise his own mind and judgment in the selection of members for his cabinet. Let us give Mr. Borden credit for doing the same, and let us hope and expect that he will be large minded enough to give the West its due, the croakers notwithstanding.

THE CAR SHOPS

While we are kicking cannot we send out a hit at the C. P. R. for not locating their car shops here. There is lots of room on all sides of the town. Surely our town fathers are behind in these days of grab. But there, let us go on our way and be content with such things as we have.

CARELESSNESS

Three young children were recently burned to death in the county of Montmorency. It seems the little tots were left alone in the house, and it is supposed that one of them started a fire while playing with matches. Why are not parents more careful in regard to matches, coal oil and lamps? How often we read of awful fatalities such as the above, and all through lack of thoughtfulness and carelessness.

Pay Up Your Bills

When, last week, the Advertiser advised the grain growers not to be in a hurry about rushing their grain to market, but to watch their chance and sell to the very best advantage, it did not mean to recommend that they hoard their crops in the granary for months, or years even, until some phenomenal wave of high prices should give them extraordinary profit.

The first thing to be done is for the farmers who have this season harvested abundant crops to see to it that their outstanding bills are promptly paid. This is a duty which they owe to the community, and to neglect it is to disregard the principles of common commercial honesty.

It especially applies to accounts with the town merchants, with the grocer, the hardware dealer, the dry goods man, together with the doctor, even the lawyer.

It has been a trying year for the merchant. With nothing coming in during the long months while

the harvest was slowly ripening, dependent on the little transient trade that scarcely paid the rent, carrying a long and steadily growing list of accounts, chiefly with farmer customers, he has had to make what terms he could with the wholesaler and the bank. It has been a long period of waiting and anxiety.

It is the plain duty of every debtor, as soon as he is able to produce the cash, to settle these accounts in full, to wipe off the slate and begin with a clean sheet. The merchant can then pay his own indebtedness, keep alive his credit and lay in a fresh stock of goods for the coming season. The wholesalers will benefit and the trading public will be the gainer. Pay up your bills.—Macleod Advertiser.

To Get the Best

For your money in Printing, If you have not given us an opportunity to demonstrate our claims you are the loser as much as ourselves.

This is where we come in

To those who have not been satisfied with their Printing—and all others—we ask a trial.

IT'S UP TO YOU!

What do you think of it?

Sound Advice

FARMER—Well wife, the barn wants painting, the fence is down, the chickens are in the garden, the doors are off the granary, the pump's no good, we haven't a knife that we can cut the meat, the linoleum is full of holes, the house is swarming with flies, the chickens are covered with lice, we haven't got a decent chair to sit on, the buggy squeaks worse than the hammer. I think we'll quit farming.

WIFE—Let us go and see McMeekin & Scragg and get the place fixed up. We're going to have a good crop this year, and I know the boys will treat us right.

the Hustler.

Monday, Oct. 30th, is Thanks-
giving Day.

Miss Zintel was a Calgary visi-
tor on Monday.

Mr. Lorne Tiffin was in Calgary
on Monday on business.

Mrs. Fredericks of Strathern is
visiting her sister, Mrs. J. W.
Bradley.

Quite a few attended the High
River fair last week from Cayley
and district.

Threshing outfits are operating
from daylight until darkness just
as hard as it is possible to run
them.

Mr. J. Wickens has accepted
the position as engineer with the
Myers threshing and ploughing
outfit.

The elevators here are kept
busy day and night. It is sweet
music to both the farmer and the
merchant.

Mr. A. C. George took all the
prizes coming with his thorough-
bred Holstein cattle at the High
River fair last week.

Miss Beanie Lobban, of Maple
Creek, Sask., sister of our popular
school teacher, has accepted a
position with Caspell & Nablo.

On account of the farmers being
so busy with their threshing the
merchants in town have decided
to keep their stores open at nights
until the busy season is ended.

Thirty cars of wheat was ship-
ped from the elevators here last
week. What is just beginning to
come in now nicely, but there is
a great quantity to come in yet.

Miss Logan of the Mosquito
Creek school has resigned to ac-
cept a similar position at the
Meadowbank school, the late
teacher, Miss Armstrong, having
returned to the East.

Three hundred and ninety-five
head of cattle was shipped from
here last week, and 233 head have
been shipped this week so far.
The consignments were all made
to the Harris Abattoirs, Toronto.

Mrs. John Nelson of Barnes-
ville, Minn., and sister of Mr.
Chas. Nelson, who has been here
the past six weeks nursing the
late Mrs. Chas. Nelson, returned
to her home on Monday evening.

Our laundry man made his
quiet exit from here a few days
ago, but we are to have a new
washee washee man in a few days
from Lethbridge. In the mean-
time some of our bachelors are
doing their own washee.

As usual Cayley was well rep-
resented in the horse classes at
the High River fair last week.
The McConkey Bros. took first
prize in two-year-old heavy Clydes-
dale draughts, first in yearlings,
first in four-year-old and over,
first in agricultural three-year-old,
besides three or four seconds in
other classes. W. Caspell took
first in best agricultural teams,
first and second in broad mares,
first in two-year-old grand pur-
pose, first in two-year-old hack-
ney, first in gentleman's saddle
horse, second in best single drive
turnout, first in fall sheaf wheat,
first in eight varieties of sheafs.

Card of Thanks

Mr. Chas. Nelson desires to
thank all his friends, neighbors
and relatives, and the members of
the I. O. O. F., local and visitors,
for the great kindness and practi-
cal sympathy shown towards him
in his recent sad bereavement,
and also to his wife during her
sickness and death.

Presbyterian Harvest Home
on Thanksgiving Day.

Communication

TO THE EDITOR:

Dear Sir—Kindly permit me
to make a few suggestions in re-
gard to the effusions of "An Old
Subscriber" in your last issue.
Mr. Borden seems to have attach-
ed considerable importance to
their having selected a Laurierite
for the position of finance minis-
ter, realizing, no doubt, as the
Hustler did, that a partizan of
the late government would fully
understand the manipulation of
the principal grafting department
of the cabinet.

The condescending and effable
manner in which "An Old Sub-
scriber" refers to such men as
Lords Roseberry, Strathcona
Balfour and others is, to say the
least, refreshing, and reminds me
that as the new government will
now have the naming of suitable
men to be recommended to His
Majesty as the recipients of such
royal honors as may hereafter be
distributed, we should see to it
that Cayley's premier receives at
least equal honor to that which
will no doubt be offered to Can-
ada's first minister, and I am quite
sure that the Hustler's many
readers in this locality will one
and all agree with me that our
nominee would be able to fill a
seat amongst the august "Bunch
of Sapeheads" with grace and dig-
nity.

Yours truly,

A New Subscriber.

Alberta Men's
Missionary Convention

The first provisional conven-
tion under the auspices of the
Laymen's Missionary Movement
and the Church Missionary Boards
is to be held in Calgary on the
23rd, 24th and 25th of October.

The day sessions will be held
in Paget hall and the evening
meetings in Central Methodist
church. Paget hall will be con-
vention headquarters where registra-
tion, etc., will be cared for.

On the morning and afternoon
of the 25th denominational con-
ferences are to be held, at which
the discussion of the missionary
problems from the denominational
standpoint will be conducted by
the leading men of the different
denominations.

The general sessions will be
addressed by the strongest men
in the missionary enterprise to-
day. Besides leading Canadian
churchmen, there will be present
Dr. John R. Mott of New York
and Sir Alex. Fraser of Scotland.

Only duly accredited delegates
will be admitted as it will be im-
possible for many reasons to throw
these missions open to the public.
The delegation fee for provincial
delegates is \$2, there will be no
offerings whatever taken at any
of the sessions, nor will there be
any special appeal for money for
the missionary work, the conven-
tion being purely inspirational and
educational. Any layman who
applies for registration will be
accepted, and all laymen are very
strongly urged to avail themselves
of this privilege, the like of which
may not come to this country for
many years.

Further information may be se-
cured by applying to the pastors
of your town. The Rev. Edward
S. Bishop of Macleod, the execu-
tive secretary, has been corres-
ponding with 3000 men in Alberta
and a record attendance is confi-
dently expected. Such a gather-
ing as this convention promises
to be should mean much for the
religious life of the province. The
Church of England will be repre-
sented by the Rev. Canon Gould,
Rev. D. B. Harkness who repre-
sent the Baptist Church; the
local superintendents of Home
Missions will both be present;

and the Rev. R. P. McKay, D.D.,
moderator of the General Assem-
bly of the Presbyterian Church;
and Rev. S. D. Chow, D.D., of
the Methodist Church, will both
take a prominent part in the con-
vention.

Potato Storage

In this Western country it is a
big proposition to decide what is
the best way to handle the potato
crop. The time of digging is the
first consideration. All authorities
agree that potatoes should be dug
before heavy frosts occur. Late
potatoes should be left on the
vines as long as possible and yet
be dug before frost. If it is pos-
sible to get a reasonable price, the
average grower can sell his surplus
potatoes soon after digging. Un-
der ordinary market conditions
only men who have good root
cellars of potato storage houses
are justified in holding a large
quantity of potatoes over winter.

A good storehouse for potatoes
must never fall below 30 degrees
in temperature nor rise much
above 40 degrees. It should be
well ventilated, dry and dark. The
cellar of the ordinary dwelling
house meets these requirements
very well, although here the tem-
perature often rises too high, and
there is danger of it falling too
low; also the ventilation may not
be satisfactory.

By one who understands the art,
potatoes may be successfully stored
in pits. A trench is dug in the
ground about three feet wide,
one foot deep, and any length
desired. The potatoes are then

filled in till there is a pile three or
four feet deep. Straw is piled
over the potatoes to the depth of
ten or twelve inches, and a layer
of soil is put on except over the
top, which is left open for ventila-
tion until the really cold weather
comes. As the weather gets colder
it may be necessary to add a
layer of manure over the sod, and
care must be taken to plug up the
ventilating hole at the top every
evening and during the extremely
cold days. It must frequently be
left open, however, to provide
ventilation. Potatoes in a large
mass without ventilation will heat
and spoil.

In large potato-growing districts
special potato storage buildings
are constructed. They are pro-
vided with ventilators, a thermometer
and oftentimes a stove. At night
the ventilators are closed, but during
warm days they are opened. The
object is to always keep the
temperature between thirty and
forty degrees. Potatoes, immedi-
ately after digging should, if possi-
ble, be cooled off at once and
kept cool until used.
